July 21, 2021

Dear Clare McIntosh,

Dear committee of Trustees,

May the peace and love of our Lord Jesus Christ be with you all!

In the name of the people affected with leprosy in Jimma, the community of the Daughters of Charity who serve these persons and on my own name, I would like to express my gratitude for your generous donation. Sister Tsege Abraha who is in charge of this project is also here in Addis Ababa for a meeting and she has overjoyed with this news. At this difficult time of the history in Ethiopia with the conflict in the North, the pandemic of coronavirus and the sky rocketing inflation in the country, this donation means a lot for our service to those who are infected and affected by leprosy. The Guild did not only grant for the donation we requested for but also added one more thousand Euro to help us to continue to work towards the eradication of coronavirus efforts which we are involved in, and we are very grateful for that. We know this is exceptional fund for this time yet we are very grateful for that.

The funds will be appropriately used to support the people with leprosy, as indicated in our project proposal. The list of activities we would like to accomplish will be, food for the hungry victims of leprosy, medication and referral cases, sanitizer and face masks, wheel chairs, cane (blind stick), awareness creation education, school uniform support for children, Community support (environmental cleaning) and maintenance of the centre. After these activities are accomplished the narrative and financial reports will be sent to you in due time. If there is a report format for this fund, either online or offline, we would be grateful to get it; if there isn't any, we will report it on our own format.

We are very grateful to you all at St. Francis, to your generous donors of women and men in England, Wales, Scotland and Ireland who contribute towards your services to enable us serve the persons affected by the leprosy. We will remember you all at the Guild and all the Guild's donors who are dedicated to support you to give this service to people affected by leprosy. May God bless you all with your hearts' desires.
